Chemistry Teacher

Description

Nasser Centre for Science and Technology is seeking a qualified and enthusiastic Chemistry Teacher to join our academic team. The successful candidate will be responsible for teaching chemistry and related subjects, combining theoretical knowledge with practical laboratory instruction to enhance learners' scientific understanding and analytical skills.

Key Responsibilities

- Prepare and deliver engaging lectures, laboratory sessions, and demonstrations in chemistry topics.
- Develop lesson plans, instructional materials, and assessments aligned with curriculum objectives.
- Guide learners in conducting experiments, analyzing results, and applying scientific methods.
- Ensure laboratory safety, proper handling of chemicals, and compliance with institutional safety standards.
- Evaluate learners' performance and provide constructive feedback to support academic growth.
- Participate in curriculum development, academic meetings, and professional training as required.

Qualifications

- Bachelor's degree in Chemistry or Chemical Engineering.
- Strong knowledge of general, organic, and analytical chemistry principles.
- Previous teaching or laboratory experience is an advantage.
- Excellent communication and classroom management skills.
- Ability to inspire and motivate learners through practical and interactive teaching methods.
- Fluency in English, both written and spoken.
- 2-5 years of experience in teaching chemistry or working in a related scientific field.
